PRICE LIST FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the Price List. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a Price List filing is made, an updated Check Sheet accompanies the Price List filing. The Check Sheet lists the sheets contained in the Price List, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets.) The Price List user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Commission.

SERVICES AND RATES

1.1 General

The Company offers automated operator assisted collect-only calling services for use by inmates of prisons, jails or other Confinement Institutions. Inmate access to the Company's services may be restricted by the administration of the Institution served.

Customers are charged individually for each call placed through the Company's network. Charges may vary by service offering, mileage band, class of call, time of day, day of week and/or call duration. Customers are billed based on their use of PCS' services and network. No installation charges apply.

SERVICES AND RATES, (CONT'D.)**1.2 Timing of Calls**

Billing for calls placed over the PCS network is based in part on the duration of the call as follows, unless otherwise specified in this Price List:

- 1.2.1** Timing of each call begins when the called station is answered (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection. For Collect Calls, charges apply only if the called party accepts the responsibility for payment. For Person to Person Calls, charges apply only if the calling party is connected with the designated called party or an agreed upon substitute.
- 1.2.2** Chargeable time for calls ends when one of the parties disconnects from the call.
- 1.2.3** Unless otherwise specified in this Price List, the minimum initial period for billing purposes is one (1) minute.
- 1.2.4** Unless otherwise specified in this Price List, billing for usage after the initial period is in full one (1) minute increments.
- 1.2.5** The Company will not knowingly bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, PCS will reasonably issue credit for the call.

SERVICES AND RATES, (CONT'D.)**1.3 Institutional Operator Assisted Calling**

Institutional operator assisted service allows inmates to place collect calls through an automated call processing system. The call processing system prompts the inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party.

A number of special blocking and screening capabilities are available with institutional operator services provided by PCS. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the institution.

For services provided to inmates of institutions, the following special conditions apply:

- a. Calls to "900", "976" or other pay-per-call services are blocked by PCS.
- b. At the request of the institution, PCS may block inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).
- c. At the request of the Institution, PCS may block inmate access to "911", "411", or local operators reached through "0-" dialing.
- d. At the request of the Institution, PCS may block inmate access to specific telephone numbers.
- e. Availability of PCS's services may be restricted by the institution to certain hours and/or days of the week.

1.3 Institutional Operator Assisted Calling, (Cont'd.)

- f. At the request of the institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning PCS's services is provided to the administration of each institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the institution's administration.
- g. At the request of the institution, PCS may impose time limits on local and long distance calls placed using its services.
- h. At the request of the institution, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.

1.4 Prepaid Collect Service

Prepaid Collect Service allows recipients of collect calls from inmate facilities to set up a prepaid account with the Company from which such calls are decremented.

Inmates place a collect call through the standard dialing pattern to a specific telephone number (station to station). The Subscriber accepts the collect call and the charges for that call are deducted from the Subscriber's Prepaid Account. Funds in this Prepaid Account may only be used for payment of calls received by Subscribers to their telephone number specified to the Company when the Prepaid Account is established.

Prepaid Collect Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

Usage for each call placed is deducted from the Available Usage Balance in the Inmate's Prepaid Account. Customers may obtain the current Available Usage Balance, last payment made and last payment date by calling the Company's Customer Service toll free number twenty-four (24) hours a day, seven (7) days a week.

SERVICES AND RATES, (CONT'D.)**1.5 Institutional Prepaid Service**

Institutional Prepaid Service allows inmates to set up prepaid accounts for outbound calling. Prepaid calls are originated when the inmate enters their unique PIN and destination number. The institution has the option of enabling a function requiring positive call acceptance on each call placed via Institutional Prepaid Service.

With the assistance of the institution, the company will set up a Prepaid Account for calls placed from the institution. Funds in the Prepaid Account may only be used for payment of calls placed by inmates. The Company's system informs the inmate of the Available Usage Balance remaining in the Prepaid Account upon access to place a call, and prompts the inmate Customer to place a call by entering the destination telephone number.

Institutional Prepaid Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

Usage for each call placed is deducted from the Available Usage Balance in the Inmate's Prepaid Account on a real time basis as the call progresses. (T)

While a call is in progress and the Available Usage Balance reaches one minute, a voice prompt will announce to the inmate that one minute of time remains on their Prepaid Account and that the call will be cut off after that time.

SERVICES AND RATES, (CONT'D.)**1.6 Pay 2 Talk**

Pay 2 Talk service allows recipients of inmate collect calls to pay on a per call basis. This service is targeted to called parties who either do not want to set up a prepaid account and purchase a bulk set of minutes on a prepaid basis or who may be blocked from receiving collect calls. When the call is placed the called party will be prompted for credit card information and once received and validated, the call will be connected. Calls are billed only via a major credit card, as determined by the Company. Call rates are based on 15 minute increments.
