TARIFF FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 4 and 5 would be 4.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 4 cancels the 3rd revised Page 4.
- C. Paragraph Numbering Sequence - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.(A)
 - 2.1.1.(A).1
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

Access Code - A sequence of numbers that, when dialed, connects the caller to the carrier associated with that sequence.

Aggregator - Any person or entity that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises for intrastate telephone calls including calls using an operator services provider; i.e., customers of an OSP. Aggregators include, but are not limited to, hotels, motels, hospitals, universities, airports, gas stations, and to the extent permitted by law, pay telephone owners. Aggregator does not include inmate-only coinless phones provided by correctional institutions but shall include phones provided for use by the public in visitation areas of correctional institutions.

Ancillary Service Charge – Any charge Consumers may be assessed for the use of Inmate Calling services that are not included in the per-minute charges assessed for individual calls.

(AT)

(AT)

Answer supervision - A network control signal sent from the terminating location to the originating location to inform the originating location that a call has been answered and a network control signal from the originating end to the terminating end to inform the terminating end that a calling party has hung up. In the public switched network, the answer supervision signal is used to start and stop billing for a call.

Automated Collect Call - Calls billed to the called party and completed through an automated call processing system that prompts the call originator and the called party such that the call is completed without live operator assistance.

Blocking - A feature or capability of communications systems or networks that permits deliberate denial of access under certain specified conditions; for example, restricting a residential subscriber's ability to reach information services by blocking that subscriber's access to any phone number that begins with the digits "900".

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, CON'T.

Brand - The audible and distinct identification by the OSP to the consumer of the OSP presubscribed by the aggregator.

Call splashing - The transfer of a telephone call from one OSP to another such provider in such a manner that the subsequent provider is unable or unwilling to determine the location of the origination of the call and, because of such inability or unwillingness, is prevented from billing the call on the basis of the actual originating location.

Commission - The Oklahoma Corporation Commission.

Collect Billing - A billing arrangement whereby the originating caller bills the charges for a call to the called party, provided that the called party agrees to accept the charges.

Company or Carrier - Public Communications Services, Inc., Inc. unless otherwise clearly indicated by the context.

Consumer - Any person initiating any intrastate telephone call using the assistance of a live or automated operator or any person receiving an intrastate telephone call handled by an OSP in which the called party will be paying for the service; i.e., the end user of OSP-provided services or a called party of a collect call handled by an OSP.

Customer - Means consumer.

Customer Trouble Report - any oral or written report given to the OSP's repair service or contact person by an aggregator or consumer of an OSP's service relating to a defect or difficulty or dissatisfaction with the provision of the OSP's services. Each trouble report shall count as a separate report regardless of whether subsequent reports relate to the same defect, difficulty, or dissatisfaction with the provision of the OSP's regulated services.

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, CON'T.

End user - Means consumer.

Equal access - A condition where the local exchange access service offered by a telephone company is made available in equal kind, quality and price to all long distance companies. Equal access also describes a condition where customers may choose for themselves the interexchange carrier to which their long distance calls are to be routed, using the same number of dialed digits regardless of which interexchange carrier is chosen.

Equal access code - An access code that allows the public to obtain access to the carrier associated with that code; i.e., 10xxx.

FCC - Means Federal Communications Commission.

Inmates - The confined population of institutions.

Institutions - Used throughout this tariff to refer to any type of confinement/correctional facility (i.e. prisons, jails, work farms, detention centers, etc.)

IXC - Means interexchange carrier or interexchange company, which is a carrier or company authorized by the Commission to provide long distance or interexchange communications services within Oklahoma but which does not also provide local exchange services.

SECTION 2 - RULES AND REGULATIONS

2.1 Undertaking of Public Communications Services, Inc.

PCS's services and facilities are furnished to inmates of correctional institutions for communications originating and terminating within the State of Oklahoma under terms of this tariff.

PCS installs, operates, and maintains the communications services provided hereinunder in accordance with the terms and conditions set forth under this tariff. PCS may act as the Subscriber's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the Subscriber, to allow connection of a Subscriber's location to the PCS network.

The Company's services and facilities are provided on a monthly basis unless otherwise provided, and are available twenty-four hours per day, seven days per week.

2.2 Limitations

2.2.1 Service is offered subject to the availability of the necessary facilities and equipment, or both facilities and equipment, and subject to the provisions of this tariff.

2.2.2 PCS reserves the right to discontinue or limit service when necessitated by conditions beyond its control, or when the Subscriber or End User is using service in violation of provisions of this tariff, or in violation of the law.

2.2.3 The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.

SECTION 2 - RULES AND REGULATIONS, CON'T.

2.2 Limitations, con't.

2.2.4 All facilities provided under this tariff are directly controlled by PCS and the Subscriber may not transfer or assign the use of service or facilities without the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.

2.2.5 Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service.

2.2.6 Service provided to Correctional Institutions for use by Inmates may be restricted or otherwise limited under the direction of, and at the discretion of, authorized personnel of the Institution.

2.3 Use

Services provided under this tariff may be used for any lawful purpose for which the service is technically suited subject to the limitations imposed by the Correctional Institution.

2.8 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Carrier shall be made available to the Carrier for tests and adjustments as may be deemed necessary by the Carrier for maintenance. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.9 Interruption of Service

Credit allowances for interruptions of service which are not due to the Carrier's testing or adjusting, to the negligence of the Subscriber, or to the failure of channels, equipment or communications systems provided by the Subscriber, are subject to the general liability provisions set forth in Section 2.4 herein. It shall be the obligation of the Subscriber to notify Carrier immediately of any interruption in service for which a credit allowance is desired by Subscriber. Before giving such notice, Subscriber shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by Subscriber and connected to Carrier's terminal.

2.10 Billing and Payment for Service

2.10.1 Responsibility for Charges

The called party that accepts a collect call is responsible for payment of all charges for services.

2.10.2 Payment for Service

All charges due by the Customer are payable to the Company or any agent duly authorized to receive such payments. The billing agent may be the Company, a local exchange telephone company, credit card company, or other billing service. Terms of payment shall be according to the rules and regulations of the agent and subject to the rules of regulatory bodies having jurisdiction. Any objections to billed charges must be promptly reported to the Company or its billing agent. Adjustments to Customers' bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

2.18 Special Conditions for Inmate Services

A number of special blocking and screening capabilities are available with institutional operator services provided by PCS. These capabilities allow Confinement Facilities to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the facility.

For services provided to Inmates of Confinement Facilities, the following special conditions apply:

- (a) At the request of the Confinement Facility, PCS may block inmate access to "800", "888", "950-XXXX", "10XXXX" numbers and other carriers or operator service providers.
- (b) At the request of the Confinement Facility, PCS may block inmate access to "911", "411", or local operators reached through "0-" dialing.
- (c) At the request of the Confinement Facility, PCS may block inmate access to specific telephone numbers.
- (d) Availability of PCS's services may be restricted by the Confinement Facility to certain hours and/or days
- (e) No notices or signage concerning the Company's services will be posted with its instruments. Information concerning PCS's services is provided to the administration of each Confinement Facility where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the institution's administration.

2.18 Special Conditions for Inmate Services, con't.

- (f) At the request of the Confinement Facility, PCS may place time limits on local and long distance calls placed using its services.
- (g) At the request of the Confinement Facility, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.
- (h) Calls to "900", "976" or other pay-per-call services are blocked by PCS.

2.19 Promotions

PCS may engage in promotional campaigns which include, but are not limited to, reduced rates or sign-up incentives. The Company will notify the Commission by letter specifying the services offered, terms of the promotion, location, and dates of each promotional period, thirty (30) days in advance.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Product Descriptions

All intrastate interexchange services are offered in conjunction with similar interstate service.

3.1.1 Inmate Operator Assisted Service

Inmate Operator Assisted Service allows End Users to place collect calls through an automated call processing system. The call processing system prompts the call originator and the called party such that the call is completed without live operator assistance.

Calls are placed collect to the called party. Collect Calling is a billing arrangement whereby the originating caller bills the charges for a call to the called party, provided that the called party agrees to accept the charges.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.1 Product Descriptions, (Cont'd.)

3.1.2 Prepaid Collect Service

Prepaid Collect Service allows recipients of collect calls from inmate facilities to set up a prepaid account with the Company from which such calls are decremented.

Inmates place a collect call through the standard dialing pattern to a specific telephone number (station to station). The Subscriber accepts the collect call and the charges for that call are deducted from the Subscriber's Prepaid Account. Funds in this Prepaid Account may only be used for payment of calls received by Subscribers to their telephone number specified to the Company when the Prepaid Account is established. Customers who establish Prepaid Collect Service may contact the Company at any time to request a refund of unused funds.

Prepaid Collect Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

Usage for each call placed is deducted from the Available Usage Balance in the Inmate's Prepaid Account. Customers may obtain the current Available Usage Balance, last payment made and last payment date by calling the Company's Customer Service toll free number twenty-four (24) hours a day, seven (7) days a week.

(CT)

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.1 Product Descriptions, (Cont'd.)

3.1.3 Institutional Prepaid Service (Debit)

Institutional Prepaid Service (Debit) allows inmates to set up prepaid accounts for outbound calling. Prepaid calls are originated when the inmate enters their unique PIN and destination number.

With the assistance of the institution, the Company will set up a Prepaid Account for calls placed from the institution. Funds in the Prepaid Account may only be used for payment of calls placed by inmates. The Company's system informs the inmate of the Available Usage Balance remaining in the Prepaid Account upon access to place a call, and prompts the inmate Customer to place a call by entering the destination telephone number. Upon release from the Institution, Inmates will receive a refund of the unused balance of the Institutional Prepaid Service.

Institutional Prepaid Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

Usage for each call placed is deducted from the Available Usage Balance in the Inmate's Prepaid Account on a real time basis as the call progresses. (CT)

While a call is in progress and the Available Usage Balance reaches one minute, a voice prompt will announce to the inmate that one minute of time remains on their Prepaid Account and that the call will be cut off after that time.

3.1.4 Pay 2 Talk

Pay 2 Talk service allows recipients of inmate collect calls to pay on a per call basis. This service is targeted to called parties who either do not want to set up a prepaid account and purchase a bulk set of minutes on a prepaid basis or who may be blocked from receiving collect calls. When the call is placed the called party will be prompted for credit card information and once received and validated, the call will be connected. Calls are billed only via a major credit card, as determined by the Company. Call rates are based on 15 minute increments.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

- 3.2 Timing of Calls** (MT)
- 3.2.1** Long distance usage charges are based on actual usage of PCS's network. Timing for automated collect calls begins when the called party accepts the charges for the call.
 - 3.2.2** Chargeable time for a call ends upon disconnection by either party.
 - 3.2.3** Calls are billed in full minute increments.
 - 3.2.4** No charges apply for incomplete calls. (MT)

SECTION 3 - DESCRIPTION OF SERVICE, CON'T.

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the rate centers as defined by AT&T in its Tariff No. 10 as filed with the FCC in the following manner:

Step 1: Obtain the "V" and "H" coordinates for the rate center of the Customer's switch and the destination point.

Step 2: Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.

Step 3: Square the differences obtained in Step 2.

Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

SECTION 4 - RATES

4.1 General

PCS provides automated operator assisted collect-only calling services for use by inmates of prisons, jails or other Confinement Institutions for communications originating and terminating within the State of Oklahoma. Inmate access to the Company's services may be restricted by the administration of the Institution served. The Company's services are available twenty-four hours per day, seven days a week. Unless otherwise specified in this Tariff, intrastate service is offered in conjunction with interstate service.

Customers are charged individually for each call placed through the Company's network. Charges may vary by service offering, mileage band, class of call, time of day, day of week and/or call duration. Customers are billed based on their use of the Company's services and network.

Intrastate IntraLATA calls originating and terminating within the State of Oklahoma using PCS's long distance services will not be permitted on a 1+ presubscribed basis until intraLATA presubscription has been authorized or ordered by the Oklahoma Corporation Commission or by Oklahoma Law. However, Oklahoma intrastate intraLATA calls can be placed on a 10XXX basis or through the use of other access code dialing sequences where facilities and equipment permit.
