

# GTL is a proud sponsor of the 2021 Technology in Corrections Conference.

GTL, the largest software-enabled product and services company in the corrections space, will showcase the capability of its solutions in its **Virtual Showroom** during the Conference.

Our representatives will be available for anything you might need, including **discussing use cases**, or taking you through a specific **live product demonstration** of your choice.

**Pre-recorded product demos** (3 to 6 minutes in length) are also available for viewing at your leisure, in addition to other digital materials.

**On Wednesday, April 28th** at 11:15am U.S. Eastern Time / 17:15 Central European Time, Gad Tobaly, President of **GTL International**, will participate with Industry colleagues, in a panel discussion (“Armchair Discussion”) —“The CEO View of Disrupted Technology in Corrections.” This panel discussion will take place right after the Keynote address, which opens the conference.

**On Wednesday, April 28th** at 13:45 U.S. Eastern Time / 19:45 Central European Time, Christopher Ditto, GTL Vice President, Research and Development, will present on “Artificial Intelligence (AI)” discussing how real-world machine learning innovations involving photo, video, text, and metadata have shown success in correctional settings and provided benefits to correctional facilities, incarcerated individuals, and their family and friends.

A menu of **Prescheduled short live demonstrations** has also been arranged. All you need is to join via this **Zoom Link** at the time of your choosing, per the schedule below. If needed, local dial-in numbers are available **here**.

In anticipation of your visit to our **Virtual Showroom**, GTL is pledging a contribution after the conference to the **Correctional Peace Officers Foundation**, which provides support for the families of correctional officers who lost their lives in the line of duty.
